Me

I'm 21 years old software development student from Jyväskylä University of Applied Sciences. My working experience limits on the projects I have done during the school and it is time to get a practical training job.

Education

2010 – 2013 Tampereen Lyseon lukio
Graduate

2013 – Continues Jyväskylä University of Applied Sciences
Software development engineer

Qualifications

Programming languages

- C++
- Java
- C#

Web technologies

- HTML, CSS, JavaScript
- NodeJs
- ASP.NET
- JavaEE

Mobile development

- Android

Databases

- MySQL
- MongoDB

Testing

- Testlink
- Robot framework (Selenium2)

Project working

- Scrum
- GitHub – version controlling
- Trello – sprint backlog
- Slack – communication
- Toggl – worktime management

General

- Basics of network engineering
- Eager to learn a lot

Objectives

I want to get to know software development industry and how software is actually built in companies. I want to find my place, get to know new technologies and comprehend things in larger aspect. I want to work.
